- **Skin Contact:**
  - Wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or other paved surface may be hazardous to plants or animals walking on the treated area.

- **Respiratory:**
  - If you have breathing problems, outdoors or in, call 1-800-257-3379 or visit our website at [Call 1-800-257-3379 or visit our website at](http://www.gardensafe.com) for emergency information concerning this product.

**Hazardous Ingredients:**

- Iron phosphate,
Garden Safe® Brand Slug & Snail Bait contains a unique combination of iron phosphate, which is a plant nutrient that occurs in soils, with slug and snail bait additives. After eating the bait, the slugs and snails cease feeding, become less mobile and begin to die within approximate of ½ to 1 lb. by each 1,000 square yards in vegetable gardens, 10 to 30 square feet of plantings in home lawns, or 2 to 10 pounds in greenhouses. This product will control slugs and snails in or on home lawns, gardens, greenhouses, outdoor ornamentals, vegetable gardens, fruits, berries, citrus and crop plants.

Hazards to Humans and Domestic Animals:

Causes moderate eye irritation. Causes mild to moderate skin irritation. Harmful if swallowed. Harmful if inhaled. Avoid contact with eyes and skin. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, and using the toilet.

Proper Storage:

Keep out of reach of children and pets. Store in a cool, dry place. Do not reuse or refill the container. Use only the amount needed to control a population of slugs and snails. To the extent consistent with applicable law, the seller warrants that this product will perform as described on the label only when used in accordance with directions for use. To the extent consistent with applicable law, the seller will not be liable for any loss, injury, or property damage caused by improper or abnormal use conditions, or under conditions not reasonably foreseeable to seller. To the extent consistent with applicable law, the seller will not be liable for any loss, injury, or property damage caused by failure to comply with any of the directions, warnings, or precautions on the label.

Active Ingredient: By weight
Iron phosphate 1.0%
Garden Safe® Brand Slug & Snail Bait contains a unique combination of iron phosphate, which is a natural, attractive food for slugs and snails. This product will control slugs and snails in or on home lawns, gardens, greenhouses, rockeries, hedges, dichondra lawns, citrus groves, ivy patches and other ground cover where they obtain shelter by day. It also works well in rock gardens, vegetable gardens, plant pots of plants being damaged or around pots on greenhouse benches. To use, apply the bait around the perimeter of the plot to intercept slugs and snails migrating toward the berries. Use a rate of 0.15 oz or 1 level teaspoon per square yard. Scatter by hand or use a broadcast applicator. In gardens, apply the bait at the rate of 1 lb per 1,000 sq ft to intercept snails and slugs traveling to the plot. It can also be used on plant pots of plants being damaged or around pots on greenhouse benches. Apply ½ teaspoon per

Nonrefillable container. • Use the bait on lawns as a buffer zone around gardens. When slugs or snails are detected, scatter the bait at a rate of 0.15 oz or 1 level teaspoon per square yard. Scatter by hand or use a broadcast applicator. In gardens, apply the bait at the rate of 1 lb per 1,000 sq ft to intercept snails and slugs traveling to the plot. It can also be used on plant pots of plants being damaged or around pots on greenhouse benches. Apply ½ teaspoon per

Use around Flowers, Gardens, Vegetables & Fruit Trees

Caution: This product contains ingredients that may be harmful if ingested, inhaled, or if contact with the skin. Keep out of reach of children and domestic animals. Do not apply this product in an area where food or water is being prepared, washed, or served. If this product comes into contact with food or water, dispose of the food or water in an appropriate manner. If this product comes into contact with clothing or skin, wash the affected area with soap and water. If this product is ingested, call a poison control center or doctor immediately. If you apply Garden Safe® Brand Slug & Snail Bait as directed and are not completely satisfied, send any unused product to the manufacturer for refund. Do not use this product on plants that are already infested with slugs or snails. This product is not a substitute for regular garden maintenance and control measures. For best results, use this product in conjunction with other control measures.

How to Use:

1. Select a location in your garden or yard where slugs or snails are a problem.
2. Spread the bait around the perimeter of the plot to intercept slugs and snails migrating toward the berries. Use a rate of 0.15 oz or 1 level teaspoon per square yard. Scatter by hand or use a broadcast applicator.
3. In gardens, apply the bait at the rate of 1 lb per 1,000 sq ft to intercept snails and slugs traveling to the plot. It can also be used on plant pots of plants being damaged or around pots on greenhouse benches. Apply ½ teaspoon per

Storage and Disposal:

Garden Safe® Brand Slug & Snail Bait contains a unique combination of iron phosphate, which is a commercial grade of this botanical pesticide. It is an effective insecticide with a soil application method that does not contain toxic residues. It is an organo-phosphate-based product that is labeled for use around flowers, gardens, vegetables, and fruit trees. The bait kills slugs and snails by poisoning them, causing them to cease feeding, become less mobile, and begin to die within 48 to 72 hours after ingestion.

How to apply:
- Use the bait to protect any vegetables from slug and snail damage, including but not limited to artichokes, asparagus, beans, beets, black-eyed peas, broccoli, Brussels sprouts, and capers. Also use around berries, beans, beets, black-eyed peas, broccoli, Brussels sprouts, and continue spreader to kill slugs and snails. Use a rate of approximately 1 lb. per 1,000 square feet of treated area. If slugs and snails are already present, then carefully spread the bait around the plant pet. If slugs and snails are already in the plots, then carefully spread the bait around the plant pet. If slugs and snails are already in the plots, then carefully spread the bait around the plant pet.
- Spread the bait around the perimeter of the plot to intercept slugs and snails migrating toward the berries. Use a rate of approximately 1 lb. per 1,000 square feet of treated area. If slugs and snails are already in the plots, then carefully spread the bait around the plant pet.
- Apply the bait as directed on the label to control slugs and snails in gardens, rockeries, hedges, dichondra lawns, citrus groves, ivy patches and other ground cover where slugs and snails cause damage. Use a rate of approximately 1 lb. per 1,000 square feet of treated area. If slugs and snails are already in the plots, then carefully spread the bait around the plant pet.
- Treat all areas where there is a potential for infestation, especially along the perimeter of garden plots because slugs and snails can enter gardens through cracks in fences or along the base of the fence. If slugs and snails are already in the plots, then carefully spread the bait around the plant pet.
- Use the bait to protect any vegetables from slug and snail damage, including but not limited to artichokes, asparagus, beans, beets, black-eyed peas, broccoli, Brussels sprouts, and capers. Also use around berries, beans, beets, black-eyed peas, broccoli, Brussels sprouts, and continue spreader to kill slugs and snails. Use a rate of approximately 1 lb. per 1,000 square feet of treated area. If slugs and snails are already in the plots, then carefully spread the bait around the plant pet.

First Aid:
- If swallowed, do not induce vomiting. Call a Poison Control Center or get medical attention right away.
- If eye contact occurs, rinse with water for 15 minutes. If irritation persists, see a doctor.
- If skin contact occurs, wash immediately with soap and water. If irritation persists, see a doctor.
- If exposed to the dust, wash thoroughly with soap and water.

Precautions:
- Keep out of reach of children and pets.
- Do not apply directly to water or water-related areas.
- Do not use around children, pets, or livestock.
- Do not contaminate ponds, wells, or other water sources.

Storage and Disposal:
- Store in a cool, dry place out of reach of children.
- Do not use or store near food or food containers.
- Do not pour down the drain or into storm drains.
- Do not contaminate water sources.

Warranty:
- If you apply Garden Safe Brand Slug & Snail Bait as directed and are not completely satisfied, send the unused product to the address at right along with a copy of the original cash register receipt or proof of purchase from this package.
- We will refund the purchase price you paid.

PO Box 4406
Bridgeton, MO 63044-0406

**Proof of Purchase**
Can be used around Fruit Trees

**Precautionary Statements**
- Para proteger el medio ambiente, no permita que el pesticida entre o se escurra de alcance de los niños y los animales domésticos.
- No contamine el agua ni los alimentos para personas o animales por medio del almacenamiento o la eliminación.

**Environmental Hazards**

**How To Apply**

**Directions for Use**

**For Gardens**

- Esparza los gránulos de Cebo para babosas y caracoles de la marca Garden Safe en el suelo, alrededor o cerca de las plantas que se van a proteger. Para aplicaciones al voleo, use difusores al voleo estándar. Para aplicación en filas, use difusores granulares estándar. Aplique el cebo de manera uniforme a una dosis de aproximadamente ½ a 1 lb. por cada 1,000 pies cuadrados, o en zonas más pequeñas, 0.15 onz. o 1 cucharadita rasa por yarda cuadrada, para proporcionar una “barrera” de protección.

**For Greenhouses**

- Trate todas las zonas donde haya probabilidades de infestación, especialmente alrededor del perímetro de parcelas de jardín porque las babosas y caracoles suelen acceder a las plantas durante las noches. Esparza el cebo alrededor del perímetro de la parcela de hortalizas en la proporción de ½ a 1 lb. por cada 1,000 pies cuadrados, o en zonas más pequeñas, 0.15 onz. o 1 cucharadita rasa por yarda cuadrada, para proporcionar una “barrera” de protección.

**For Other Areas**

- Alcachofas, espárragos, frijoles, betabeles, frijoles de carita, brócoli, coles de Bruselas, col, melón, zanahorias, coliflor, maíz, papas, pimientos, puerros, remolachas, zanahorias, tomates y nabos. Esparza el cebo alrededor del perímetro de la parcela de hortalizas en la proporción de ½ a 1 lb. por cada 1,000 pies cuadrados, o en zonas más pequeñas, 0.15 onz. o 1 cucharadita rasa por yarda cuadrada, para proporcionar una “barrera” de protección.

**For Young Trees**

- Si está parcialmente vacío: Envase no rellenable. • Para proteger del daño ocasionado por babosas y caracoles a moras que incluyen, entre otras:

  - Hortalizas • Frutas, incluyendo cítricos • Moras • Céspedes

**CAUTION**

- MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS
**Precautions**

*This product will control slugs and snails in or on home lawns, gardens, greenhouses, outdoor ornamentals, vegetable gardens, fruits, berries, citrus and crop plants.*

**Mode of action**

This product contains a combination of iron phosphate, which is a plant nutrient that occurs in soils, with slug and snail bait additives. After eating the bait, the slugs and snails cease feeding, become less mobile and begin to die within 15-20 minutes. This product can be used around children and pets.

**Application**

- **Plants:** Scatter bait in a 6-inch circular band around the base of the plants and between the rows. Slugs and snails traveling to the plants will find the bait before getting to the plants.
- **Trees:** For young trees, apply bait at the rate of ½-1 lb per 1,000 sq ft for orchards using standard fertilizer granular rates. Do not place in piles. For broadcast application, use standard broadcast spreaders. For row application, use granular spreaders where the slugs or snails are observed.
- **Vegetables:** Aplique el cebo durante la tarde, ya que las babosas y los caracoles transcurren y comen más por la noche o temprano por la mañana.
- **Fruits:** Aplique el cebo para babosas y caracoles de la marca Garden Safe en el suelo, alrededor o cerca de las plantas que protegera. En estas situaciones, esparza el cebo alrededor del perímetro de la parcela a una distancia aproximada de ½ a 1 lb por cada 1,000 pies cuadrados en huertos, utilizando difusores estándar para fertilizantes granulados.
- **Greenhouses:** Aplique el cebo durante la tarde, ya que las babosas y los caracoles transcurren y comen más por la noche o temprano por la mañana.

**Use Information**

Keep out of reach of children and pets. Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

**Precautions and Warnings**

- Use the bait to protect any vegetables from slug and snail damage, including (but not limited to):
  - Tomatoes
  - Potatoes
  - Lettuce
  - Cabbage
  - Celery
  - Squash
  - Other favorite areas are lower leaves, such as beans, tomatoes, lettuce, cabbage, celery and squash. Other favorite areas are lower leaves.

**Emergency Procedures**

- **In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present and easy to remove. Continue rinsing eyes. Please call 1-800-858-7378 or visit our website at www.gardensafe.com for additional first aid information.
- **If on Skin or Clothing:** Wash affected area thoroughly with soap and water. If in Eyes, Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present and easy to remove. Continue rinsing. Please call 1-800-858-7378 or visit our website at www.gardensafe.com for additional first aid information.
- **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 immediately. Please call 1-800-858-7378 or visit our website at www.gardensafe.com for additional first aid information.

**More Information**

Have the product container or label with you when calling a poison control center or doctor, or seeking treatment advice. Information Center al 1-800-858-7378 seven days a week, 6:30 a.m. to 4:30 p.m.
