DIRECTIONS FOR USE

1. Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated. (See complete kit: shirt, pants, and socks.)
2. Hold container about 6-8 inches from surface of the clothing and spray with a slow, sweeping motion to lightly moisten the entire surface of the article. • 3. Continue spraying outer entire article until the entire article is moist enough to cause a slight color change or darkening. The special attention is necessary and dress the other side of the article as described in Step 2 and 3. • 5. Hang the treated clothing and allow to dry for at least two hours (four hours under humid conditions) before wearing. • 6. Three ounces will treat one complete outfit.  

RE-TREATMENT INSTRUCTIONS:

1. Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated. (See complete kit: shirt, pants, and socks.)
2. Hold container about 6-8 inches from surface of the clothing and spray with a slow, sweeping motion to lightly moisten the entire surface of the article. • 3. Continue spraying outer entire article until the entire article is moist enough to cause a slight color change or darkening. The special attention is necessary and dress the other side of the article as described in Step 2 and 3. • 5. Hang the treated clothing and allow to dry for at least two hours (four hours under humid conditions) before wearing. • 6. Three ounces will treat one complete outfit.

FIRST AID

IF IN EYES: Flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

Plastic or Glass Containers: Contain under pressure. Do not use or store near heat or open flame. Exposure to temperatures above 120°F may cause bursting. Unlabeled Hazard: This product is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to a stream, wetland or pond. A user or operator shall not be hazardous to fish or wildlife. See directions for the additional precautions and requirements.

Physical or Chemical Hazard: External explosion hazard. Do not use or store near heat or open flame. Exposure to temperatures above 120°F may cause bursting. Use and other information: This product is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to a stream, wetland or pond. A user or operator shall not be hazardous to fish or wildlife. See directions for the additional precautions and requirements.

NOTE: To the consumer consistent with applicable law, buyer assumes all responsibility for safety and use in accordance with directions. Questions or Comments? Call 1-888-880-1181 or visit our website at www.repel.com
