IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING. KEEP AWAY FROM WATER.

DANGER

As with most electrical appliances, electrical parts are electrically live even when switch is off. To reduce the risk of death by electric shock:

- Always unplug this appliance from the electrical outlet immediately after using.
- Do not use while bathing or in the shower.
- Do not place or store this appliance where it can fall or be pulled into a tub or sink.
- Do not place or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug it immediately.
- Unplug this appliance before cleaning it.

WARNING

To reduce the risk of burns, fire, electric shock or injury to persons:

- An appliance should never be left unattended when it is plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or persons with special needs.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or if it has been dropped into water.
- Keep the cord away from the heated surfaces. **Do not wrap the cord around the appliance.**
- Never use while sleeping.
- Never drop or insert any object into any of the appliance's openings.

- Do not use outdoors or operate where aerosol (spray) products are being used, or where oxygen is being administered.
- Do not use an extension cord.
- The plug on this appliance has one blade wider than the other, it is a polarized plug. As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit contact a qualified electrician. Do not attempt to defeat this safety feature.
- Always store this appliance and cord in a moisture-free area. Do not store it in temperatures exceeding 140°F (60°C).
- Never block the air openings of the appliance or place it on a soft surface, such as bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, etc.
- Do not touch the roller sockets that hold the rollers. They are hot.

SAVE THESE INSTRUCTIONS

10 instant heat rollers with ions
Ionic technology creates negative ions, which neutralize positive ions to reduce static and the "frizzies" leaving your hair looking shiny and healthy.

- Rollers heat up in 90 seconds
- 10 Ionic rollers with soft grip surface for easy rolling.
- Flame-proof, soft, lightweight case.
- Wire holders are easy to use, color coded, and hold hair in place.

- (A) Ions
- (B) 10 instant heat rollers in 2 sizes (XL and L)
- (C) Heat and carry case
- (D) Cool touch end rings

Ionic Conditioning
Less frizz, more shine

How to Use

Position rollers securely onto the heating elements.
Failure to do so can cause damage, including melting of the rollers.

- Close pouch and plug in unit. Rollers can be used in 90 seconds.
- For a soft, wavy curl, use the rollers after the 90-second heat-up. For a tighter curl, use the rollers when they have reached maximum curling temperature.

1. Get Ready

Before setting, hair should be dry or only slightly damp, never wet. Section hair and comb it smooth. Roll hair as usual, in the direction of desired style, securing each roller with the proper size color-coded wire holder placed cross-wise over the roller.

2. Get Set

Continue until your entire head is set. The time the rollers are left in the hair affects the tightness of the curl. The shorter the time, the softer the curl. Rollers will remain curling active approximately 15 minutes. If you wish to reuse rollers, return them to the unit and wait 90 seconds.

3. Go!

To release secured roller, remove each wire holder and roller gently. Unwind, never pull. Place roller back on correct post. Let each new curl spring back into position and cool for a moment. Then brush out hair and style. Spritz hair for extra hold.

Usage Tips

Will the rollers be too hot to touch when they're completely heated?

No. However, the end caps of the rollers are made of a different material. They will remain cool when the roller is heated. They are designed to be held while rolling your hair for comfort and ease of use.

How do I know when the rollers are at the "right" temperature for curling hair?

Follow the illustration and instructions in the "HOW TO USE" section.

How long should I leave the rollers in my hair?

Again, depending on the length and texture of your hair, as well as the lightness of the curl you want, timing will vary. Feel free to experiment and have fun with your new Remington® setter.

Operating and Maintenance

Operating Instructions

1. These heated rollers are designed to work on ordinary household current only. They are not intended for commercial use.
2. Plug cord into outlet, leaving pouch closed. When unit is heated, follow "How To Use" section. Unplug unit after use.
3. This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install a polarized outlet. Never try to defeat this safety feature.

CAUTION: To avoid damage, rollers must be returned to post when not in use.

Maintenance Instructions

1. Clean unit with damp cloth only. No other maintenance is required.
2. Rollers may be cleaned with a damp cloth and mild detergent or soap.
3. Store appliance and cord where they will not be damaged.
4. **Do not wrap cord around hairsetter.**
5. Do not attempt to repair the appliance yourself; return it to Remington Customer Service.

Performance Guarantee

Spectrum Brands, Inc. Money-back Offer
