○ **READ ALL INSTRUCTIONS BEFORE USING.**

○ Only use iron for its intended use.

○ To avoid risk of electric shock, do not immerse the iron in water or other liquids.

○ Always turn iron off before plugging or unplugging from the electrical outlet. Never pull on the cord to disconnect the iron from the electrical outlet; instead, grasp the plug and pull on the plug to disconnect the iron.

○ Do not let the cord touch hot surfaces. Let the iron cool completely before putting the iron away. Coil the cord loosely around the iron when storing.

○ Always disconnect the iron from the electrical outlet before filling the iron with water, emptying the water from the iron, and when the iron is not in use.

Take it to a qualified serviceman for examination and repair. Incorrect assembly might result in a risk of electric shock when the iron is used after reassembly.

○ Close supervision is necessary for any appliance used by or near children. Do not leave the iron unattended while the iron is connected or on an ironing board.

○ Burns can occur from touching hot metal parts, hot water or steam. Use caution when you turn a steam iron upside down— there might be hot water in the reservoir.
