IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic precautions should always be observed, including the following. Read all instructions before using this appliance.

WARNING

To reduce the risk of burns, fire, electric shock or injury to persons:

- Do not use this appliance with a damaged or broken cutting unit, as injury may occur.
- Close supervision is necessary when this appliance is used by, on, or near children and persons with special needs or certain disabilities.
- This trimmer is designed for household use only.
- Do not use attachments not recommended or authorized by manufacturer.
- Always store your trimmer in a moisture-free environment. Do not store trimmer in temperatures exceeding 130°F/54°C.
- Always remember to turn on the trimmer before you insert it into your nose or ear to avoid painfully snagging hairs.
- Never insert the trimmer more than 1/4" (6mm) into nose or ear. Foreign objects should not come into contact with eardrum.

SAVE THESE INSTRUCTIONS

Replacing the Battery

All Remington® detail trimmers run on one "AAA" ALKALINE battery.

Inserting the Battery

1. Make sure the trimmer is "OFF" and remove the guide comb. (A)
2. Slide the power button down, away from the blades, exposing the battery compartment. (B)
3. Insert one "AAA" ALKALINE battery, positive end down. (C)
4. Slide power button up, towards the blades, retracting the battery compartment back into the unit. Make sure it fully clicks into place.

Use of any batteries other than alkaline will negatively affect the unit's operating performance. Batteries should not be left in the unit if the unit is not in use for long periods. To prevent battery corrosion the unit should be kept in a dry environment. Dead batteries should be removed immediately and disposed of properly. Do not use rechargeable batteries. The lower voltage in recharged batteries impairs the performance of the cutting unit.

How to Use

Before Use:

Test a small area on an arm or leg before using your trimmer completely. Discontinue use immediately if any sensitivity or allergic reaction occurs. Do not use on sensitive or irritated skin.

How to Use:

This trimmer can trim nose, ear, and body hair. It can also be used for detailing facial hair styles, neck and sideburns.

The MPT-400 features a compact, pop-up design. To turn the unit on, push the Power button and slide up, toward the head, to expose the blades. (D) To turn off, push the Power button and slide back down.

When you want to completely remove the hair use the trimmer without the guide comb.

To trim hair closely but evenly, attach the guide comb. The comb can be attached in two different positions for either a 2mm trim or a 3.5mm trim. Make sure that the teeth of the comb are facing in the same direction as the trimming blade. Align the ridge on the trimmer with one of the two grooves on the inside of the guide comb then slide and click into place. (E)

Trimming Tips

1. Place the trimmer at a slight angle to the skin, and trim in the direction of hair growth.
2. Continue trimming in the direction of growth. Be careful not to apply excess pressure to the blade. This may damage the blade, and can result in injury to the skin during trimming.
3. Pull the skin taut with one hand during the trimming process to ensure the closest possible cut.

Cleaning/Maintenance

Note: This product does not contain any user-serviceable parts. Your detail trimmer is designed to give you years of comfortable use. To ensure that you get optimal performance from it, follow these simple cleaning and lubrication tips:

Cleaning Your Trimmer

- After each use, brush or blow accumulated hair from the cutting unit.
