## IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

**READ ALL  
INSTRUCTIONS  
BEFORE USING.**

**KEEP AWAY FROM  
WATER.**

**DANGER**

As with most electrical appliances, electrical parts are electrically live even when switch is off.

**To reduce the risk of death by electric shock:**

- Always unplug this appliance from the electrical outlet immediately after using.
- Do not use while bathing or in the shower.
- Do not place or store this appliance where it can fall or be pulled into a tub or sink.
- Do not place or drop into water or other liquid.
- If an appliance falls into water, **unplug it** immediately. Do not reach into the water.
- Unplug this appliance before cleaning it.

## WARNING

**To reduce the risk of burns, fire, electric shock or injury to persons:**

- An appliance should never be left unattended when it is plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by Spectrum Brands, Inc.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or if it has been dropped into water. Return the appliance to a service center for examination and repair.
- Keep the cord away from the heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any of the appliance's openings.
- Do not use outdoors or operate where aerosol (spray) products are being used, or where oxygen is being administered.
- Do not use an extension cord.
- This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.

- Do not place the heated unit directly on any surface while it is hot or plugged in.
- The plug on this appliance has one blade wider than the other, it is a polarized plug. As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit contact a qualified electrician. Do not attempt to defeat this safety feature.
- Always store this appliance and cord in a moisture-free area. Do not store it in temperatures exceeding 140°F (60°C).
- This appliance is for household use only.
- Do not plug or unplug this appliance when your hands are wet.

**KEEP AWAY FROM CHILDREN**

## SAVE THESE INSTRUCTIONS

## Product Features

*Thank you for purchasing this Remington® flat iron. Please carefully read the instructions contained in this booklet, and keep them in a safe place for future reference.*

### Color Care Technology

- (A) Ceramic plates
- (B) Temperature display
- (C) Sensor On/Off button
- (D) Digital controls (+/-)
- (E) On/Off button
- (F) Hinge lock
- (G) Sensor LED
- (H) Swivel cord

## How to Use

### Heat Settings

Take extra care when using a professional styler. To prevent hair damage, make sure to use the correct temperature setting for your hair type.

Setting	Hair Type
300°F–340°F	Fine or easy-to-style
340°F–370°F	Color treated*
370°F–410°F	Textured
410°F–450°F	Thick or hard-to-style

### Heat Control Sensor\*

- Set the straightener to your desired temperature.
- This optional function can be turned on, or off by pressing the heat sensor button located next to the unit's +/- buttons.
- When activated, the sensor LED will illuminate, letting you know that the sensor is actively protecting your hair from excessive damage.

### Auto Shut Off

After approximately one hour, the unit will automatically shut itself off. To reactivate the unit, press the ON/OFF button.

## Usage Tips

### Straightening Your Hair

1. Hair should be dry and free of tangles before using the styling iron.
2. Plug the styler into an electrical outlet. Press and hold the ON/OFF button until the unit turns on and the temperature display lights up.
3. Adjust the temperature using the digital controls (+/-). The temperature display will flash while the unit heats up, then glow steadily when it has reached the selected temperature.
4. Divide hair into manageable sections and clip the upper layers on top of your head and out of the way. Work with underneath layers first.

5. Test the styler on a small section of hair, then adjust the temperature up or down before styling the rest of your hair.

### NOTE:

- If you find that you need a higher setting while straightening your hair, simply adjust the temperature to a higher heat setting.
- While straightening your hair, if you find that you need a lower setting, adjust the temperature to a lower heat setting. Because the unit is already hot, it may take a few minutes to cool off.

6. Take a small section of hair and pull hair down and away from your scalp, and hold it taut.
7. Starting at the roots, clamp hair firmly between the plates and run the styler down the entire hair strand, from root to tip, in one smooth stroke. Do not hold it in one area for a long period of time or damage to hair may occur.
8. To create curves or flicks, rotate your wrist to turn the iron in toward your head or out away from your head as you run the iron down the hair strand.
9. Repeat with all the sections of your hair, working with the underneath layers first, then the top and sides.
10. When you are finished styling, press and hold the ON/OFF button to turn the unit off, unplug it, and allow it to cool before storing.

## Maintenance

### Cleaning

Make sure the unit is unplugged and cool. Use a damp cloth to clean the plates and the outside of the power handle. No other maintenance of the unit is required.

### Storage

Unplug the unit whenever it is not in use. Allow it to cool, then store it out of reach of children in a safe, dry location.

Never wrap the cord around the appliance, since this will cause the cord to wear prematurely and break, thus voiding warranty. Handle the cord carefully and avoid jerking, twisting, or straining it, especially at plug connections.

## Performance Guarantee

### Limited Five-Year Warranty

Spectrum Brands, Inc. warrants this product against any defects that are due to faulty material or workmanship for a five-year period from the original date of consumer purchase. If the product should become defective within the warranty period, we will replace it free of charge.
